

Identify your Vandersteen Vintage

We do not archive any info on our speakers, but you can identify them by looking at the Rear Input Panel for the Model Number. After the serial number, there may be letters, i.e., Model 2 serial number #32400 Ci. This would be a Model 2Ci. Etc. Serial numbers are not necessarily sequential but are always paired. Note that all model designations had approximately yearly upgrades internally that are neither identified nor archived.

Model 1 Series:

- Model 1B's has a serial number but no letter, in production from 1983-1996.
- Model 1C's have a "C" after the serial number, in production 1996-2010.
